Vipin Dodke

Senior React Native Developer | Mobile App Engineer | Python Django

Bangalore | vipin830525@gmail.com | +91 7746832666 | linkedin.com/in/vipin-dodke-53115318a

SUMMARY

Mobile Application Developer with 4+ years of experience specializing in React Native and Django. Expert in UPI (NPCI) integration, offline-first architecture, and custom React hooks. Skilled in performance tuning, secure data handling, and scalable APIs. Strong background in the fintech sector with successful delivery of high-impact apps. Recognized for leadership in project execution, escalation control, and on-time delivery.

SKILLS

Mobile: React Native, Redux, React Navigation, Expo

Gen AI/LLM: Ollama (Mistral), Chat-GPT

Frontend: JavaScript (ES6+), TypeScript

Backend: Python Django

Cloud/DevOps: AWS, Azure, CI/CD, SonarQube Actions

Tools: GitLab, GitHub, Jira, Click Up, Jest

Soft Skills: Leadership, Communication, Agile Collaboration, Mentoring, Escalation Management

Other: Bluetooth (BLE-PLX), REST APIs, Graph-QL, Fast APIs, Offline-first Development

EXPERIENCE

Consultant - Deloitte (June 2023 - Present)

- Led React Native development and UTC for banking, Real State, survey, and event management apps.

- Handled over 5+ production releases with 100%+ QA pass rate.

- Mentored 5+ new joiners in React Native architecture and codebase standards.

- Managed delivery timelines, led sprint planning, and resolved project escalations on time.

Executive Software Engineer - Soft Suave Technologies (April 2021 - May 2023)

- Delivered 7+ mobile apps using React Native and integrated 10+ third-party APIs.

- Managed full mobile development lifecycle from requirement to deployment.

- Worked closely with clients to provide demos and custom feature implementation.

Programming Intern - Prayogik Technologies Pvt Ltd (Sep 2020 - Mar 2021)

- Built JWT-based authentication system and worked with ATMEGA8L microcontroller using Python and C++.

PROJECTS

Meraas App (React Native, Huawei Gallery)

- Set up architecture, CICD and production releases App -Store, Play-Store and Huawei

- **Polycob Pro Plus App (React Native, Redux, BLE)**

- Set up architecture, integrated SDKs, handled API and production releases.

Bier Communo App (React Native, Firebase)

- Led frontend build, API integration, and UI/UX refinement for app launch.

INDIE Banking App (React Native, REST API)

- Managed frontend revamp with 14+ team members, handled QA and release process.

Pranos AI App (React Native CLI, Django, AWS)

- Migrated from Expo, implemented BLE sync, Python Raspberry Pi bluetooth deployments.

Yoke Payments App (React Native)

- Developed UI and API integration modules with robust error handling and caching.

EDUCATION

Bachelor of Engineering (2020), Technocrats Institute of Technology, RGPV University, Bhopal

ACHIEVEMENTS

Received Leadership Award for managing project escalations and ensuring 100% on-time delivery across all mobile releases at Deloitte.
