VIPIN DODKE

React Native Software Engineer | Mobile Technical Lead

📍 Bangalore, India 📞 +91 7746832666 ✉️ vipin830525@gmail.com 🔗 linkedin.com/in/vipin-dodke-53115318a

PROFESSIONAL SUMMARY

Driven **React Native Software Development Engineer** with **5+ years of experience** architecting, developing, and deploying scalable, high-performance iOS and Android applications. Proven track record of leading cross-functional teams in agile/scrum environments, delivering customer-centric applications that serve millions of users across telecom, retail, and fintech domains. Adept at mobile architecture, deep linking, authentication workflows, state management, SDK integration, offline-first architecture, and integrating modern API ecosystems (GraphQL/REST). Strong advocate for modern engineering practices, TDD, automated testing, continuous delivery, and mobile accessibility standards (WCAG).

TECHNICAL SKILLS

Mobile Development:	React Native (iOS & Android), React Native CLI, Expo, Deep Linking, SDK Integration, Native Modules, Custom Hooks
Languages & Web:	TypeScript, JavaScript (ES6+), HTML5, CSS3, Python
Architecture & State:	Redux, Redux-Persist, Offline-First Sync, Modular Architecture, Component Libraries, Clean Architecture
APIs & Data:	GraphQL (Apollo Client integration), RESTful APIs, JWT Auth, User Session Management, Offline Data Sync
Testing & Quality:	Jest, TDD/BDD principles, SonarQube, Code Reviews, Mobile Accessibility Standards (WCAG)
DevOps & Tooling:	Git, GitHub, CI/CD pipelines, App Store Connect, Google Play Console, Azure DevOps, Jira

WORK EXPERIENCE

Senior Consultant – React Native | **Encora Inc.** — April 2026 – Present | Bangalore, India

- **Architected & Engineered:** Spearhead frontend React Native development for enterprise mobile platforms, focusing on high-volume customer transactions, performance optimization, user permissions, and component reusability.
- **Cross-Functional Collaboration:** Partner closely with Product Managers, QA engineers, and backend teams in an Agile environment to translate complex requirements into scalable technical solutions.
- **Release Engineering:** Manage end-to-end mobile deployment pipelines, automated builds, and store releases across iOS App Store and Google Play Store.

Consultant – Mobile Application Developer | **Deloitte (South Asia)** — June 2023 – April 2026 | Bangalore, India

- **Technical Leadership & Mentorship:** Mentored junior engineers on React Native setup, state management best practices, and clean code standards. Led PR reviews to ensure robust software quality and maintainability.
- **Large-Scale Retail & Banking Apps:** Contributed to mission-critical applications servicing large user bases, driving improvements in screen rendering speeds and app startup time.
- **API & Accessibility Integration:** Integrated modern backend service endpoints (GraphQL/REST APIs) while embedding industry-standard mobile accessibility guidelines into feature builds.
- **Process & Excellence:** Managed Agile release workflows using Azure Boards and Jira, ensuring 100% on-time delivery across multiple project release cycles.

Executive Software Engineer | **Soft Suave Technologies** — April 2021 – May 2023

- **End-to-End Delivery:** Delivered full lifecycle React Native apps from initial design, API integration, and third-party SDK integration to production releases.
- **Optimization & Quality:** Enhanced app stability through unit testing using Jest, static code analysis via SonarQube, and custom React hook abstractions for reusable business logic.

Programming Intern | **Prayogik Technologies** — September 2020 – March 2021

- Developed microchip/microcontroller scripts in Python and C++, and implemented micro-service authentication structures (JWT).

FEATURED PROJECTS

VNPT Mobile Telecom Service Provider App — **React Native Developer**

- Engineered key core modules including Authentication (Login/Signup), Profile Management, Secure User Session handling, App Permissions, and Deep Linking capabilities.

Meraas / Dubai Properties Mobile App — **Lead Frontend Engineer (Team Size: 38)**

- Spearheaded frontend production architecture, Auth0 integration, API orchestration, and UAT/Production App Store rollouts.

Bier Communo — **Senior React Native Developer**

- Led end-to-end mobile development including API integrations, custom UI architecture, offline-first data management, user session handling, and background online re-synchronization.

Polycab Pro Plus — **Frontend Engineer**

- Integrated BOQ (Bill of Quantities) SDK, developed new functional app modules, and resolved complex UI/data bug fixes to enhance system reliability.

INDIE Banking Mobile Platform — **React Native Engineer (Team Size: 65)**

- Developed core feature modules, integrated secure payment workflows (UPI/NPCI), optimized API handling, and rebuilt legacy code paths.

Bharat Petroleum (BPCL CPO App) — **React Native Engineer (Team Size: 128)**

- Engineered responsive UI screens integrated with SAP Hybris backend systems to ensure real-time data sync.

Pranos AI App — **Principal Mobile & Backend Engineer**

- Migrated application from Expo to React Native CLI, implemented Bluetooth Low Energy (BLE-PLX) sync, and built supporting Python/Django API endpoints.

EDUCATION & HONORS

B.E. in Electronics & Communication Engineering – RGPV University **2020**

Leadership Award (Deloitte): Recognized for managing project escalations and 100% on-time deployments.

Efficiency Mastermind Award (Deloitte): Honored for team engineering excellence and release efficiency.

Productive Award (Soft Suave): Awarded for outstanding performance, efficiency, and project delivery excellence.

Best Mentor Award (Soft Suave): Awarded for technical guidance and onboarding engineering colleagues.
